

CANADIAN JOURNAL OF PHYSIOLOGY AND PHARMACOLOGY, VOLUME 50

AUTHOR INDEX

Under each name are listed, in chronological order of publication, all articles in which an author has participated.

- Abrahams, V. C.**
Neck muscle proprioceptors and vestibulospinal outflow at lumbosacral levels. V. C. Abrahams, 17.
- Aldridge, A.**
Excretion of sulfinpyrazone in the rat. A. Aldridge and G. E. Johnson, 1061.
- Altland, P. D.**
Serum and tissue enzymes and adrenocortical responses in rats exercised at intervals after cold acclimation. M. P. Dieter, P. D. Altland, and M. G. Parker, 717.
- Appel, J. R.**
Catecholamines in turkeys with high or low blood pressure: effects of tyrosine hydroxylase inhibitor and ganglionic blocker. M. E. El-Halawani, P. E. Waibel, J. R. Appel, A. L. Good, and G. E. Duke, 697.
- Arnold, D.**
Ventilation and fibrinolytic activity. A. Rossman, R. C. Goode, F. C. Monkhouse, S. Milojevic, V. McAlpine, and D. Arnold, 389.
- Balasubramanian, V.**
Biochemical basis of heart function. V. Effect of starvation on storage, transport, and synthesis of cardiac norepinephrine in rats. V. Balasubramanian and N. S. Dhalla, 238.
Biochemical basis of heart function. VI. Influence of cations on norepinephrine transport, storage, and synthesis in the isolated perfused rat heart. V. Balasubramanian and N. S. Dhalla, 423.
- Bastarache, E.**
Effect of hippocampal stimulation on the plasma thyrotropin (TSH) and corticosterone responses to acute cold exposure in the rat. A. Dupont, E. Bastarache, E. Endrőczy, and C. Fortier 364.
- Batra, S.**
The effect of sodium and potassium on calcium uptake by frog skeletal muscle mitochondria and vesicles. S. Batra, 1157.
- Bayley, H. S.**
Amino acid composition of digesta taken from swine receiving diets containing soybean or rapeseed meals as sole source of protein. C. Y. Cho and H. S. Bayley, 513.
- Beaton, G. H.**
Quantitative aspects of the urinary and fecal excretion radioactive metabolites of vitamin A in the rat. R. N. Varma and G. H. Beaton, 1026.
- Beaugrand, J.**
Ambivalence in rats using single-lever Skinner boxes. J. St-Laurent, R. Leclerc, J. Beaugrand, M. Mitchell, and M. Paradis, 1104.
- Beauregard, L. J.**
Uridine-³H uptake by human oocytes. S. K. Ghosal, L. J. Beauregard, P. H. LaMarche, F. G. DeLuca, and C. P. Parmar, 285.
- Beck, I. I.**
Effect of changes in the osmolality of the luminal fluid on intracellular concentration of solutes in the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 72.
Effect of changes in the osmolality of the luminal fluid on water and glucose transport across the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 83.
- Beck, J. C.**
Hormonal release by dispersed pituitary cells. C. F. Kudo, D. Rubinstein, J. M. McKenzie, and J. C. Beck, 860.
- Beck, J. S.**
Effects of cytochalasin B on osmotic fragility and deformability of human erythrocytes. J. S. Beck, A. W. L. Jay, and J. T. Saari, 684.
- Beck, M.**
Effect of changes in the osmolality of the luminal fluid on water and glucose transport across the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 72.
Effect of changes in the osmolality of the luminal fluid on water and glucose transport across the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 83.
- Belleau, L. J.**
Contralateral natriuresis during reduced renal artery perfusion pressure in "renin-depleted" dogs. L. J. Belleau and D. Mailhot, 215.
- Benmouyal, E.**
Effect of ions, ouabain, epinephrine, and tetrodotoxin on glucose metabolism and on contractility in the perfused guinea pig heart. E. Benmouyal, 584.

- Bernardis, L. L.**
Hypoactivity as a possible contributing cause of obesity in the weanling rat ventromedial syndrome. L. L. Bernardis, 370.
- Bhargava, S.**
Metabolism of nucleic acids and protein in the liver, brain, and kidney of female rats subjected to dietary restriction during the period of gestation as well as the period of growth, gestation, and lactation. U. Srivastava, M.-L. Vu, S. Bhargava, and T. Goswami, 832.
- Bhatnagar, M. K.**
Inhibition of mouse ascites tumors by carbohydrate combined with immunization. C. P. Eng, M. K. Bhatnagar, and J. F. Morgan, 156.
- Bhatnagar, S. P.**
Action of some centrally active drugs and heavy metals on *in vitro* oxidation of dopamine by rat brain tissue. S. P. Bhatnagar, 1080.
- Bickley, H. C.**
Some metabolic effects of a single dose of crystalline dihydrotachysterol. R. J. Burriss-Garrett, H. C. Bickley, and J. W. Little, 1086.
- Blum, J. C.**
Etude de l'influence de jeûnes périodiques sur la croissance, la glycémie, quelques caractéristiques du métabolisme hépatique et la composition corporelle du poulet. J. Simon et J. C. Blum, 621.
- Booth, M. A.**
Human skeletal muscle phosphorylase activities with exercise and training. A. W. Taylor, M. A. Booth, and S. Rao, 1038.
- Boréus, L. O.**
The influence of rate of filling on apparent venous distensibility in man. N. K. Hollenberg and L. O. Boréus, 310.
Venous constriction in response to head-up tilt in man. L. O. Boréus and N. K. Hollenberg, 317.
- Borkow, I.**
Effect of catecholamines and dibutyl-cyclic-AMP on glucose turnover, plasma free fatty acids, and insulin in dogs treated with methylprednisolone. B. Issekutz Jr. and I. Borkow, 999.
- Bose, D.**
Isoprenaline-induced relaxation of smooth muscle not due to electrogenic sodium pumping. D. Bose and I. R. Innes, 378.
- Box, B.**
Gastric motor activity during feeding induced by stimulation of the lateral hypothalamus in the rat. L. Glavcheva, S. K. Manchanda, B. Box, and J. A. F. Stevenson, 1091.
- Bowen, J. M.**
Effects of rare earths and yttrium on striated muscle and the neuromuscular junction. J. M. Bowen, 603.
- Brazeau, P., Jr.**
Activités de la HL-STH hypothalamique, de la STH hypophysaire et de la STH mimétique du plasma chez des rates adultes et immatures traitées à l'Enovid. P. Brazeau, Jr., R. Saucie et S. M. Husain, 967.
- Brezenoff, H. E.**
The actions of polymyxin B and histamine on ganglionic transmission. H. E. Brezenoff and S. B. Gertner, 824.
- Brisson, G. J.**
Effect of two types of feed restriction, intermittent total starvation or intermittent protein starvation, on growth, lipogenesis, and fatty acid composition of liver and adipose tissues in chicks. J. Simon and G. J. Brisson, 634.
- Brodeur, J.**
Metabolic studies on the mechanisms of increased susceptibility of weanling rats to parathion. J. Gagné and J. Brodeur, 902.
- Brown, R. G.**
Ascorbate metabolism in swine. Influence of maternal hypoxia on fetal tissue ascorbate levels. R. G. Brown, W. H. Harris, and J. N. Cummings, 407.
- Brunette, M. G.**
The effect of furosemide on the intrarenal blood flow distribution in the dog. S. Carrière, M. Desrosiers, J. Friberg, and M. G. Brunette, 774.
- Bureau, M.**
Studies on the sensitization to cardiovascular effects of catecholamines. J. Vallières, M. Bureau, and J. LeBlanc, 576.
- Burriss-Garrett, R. J.**
Some metabolic effects of a single dose of crystalline dihydrotachysterol. R. J. Burriss-Garrett, H. C. Bickley, and J. W. Little, 1086.
- Caillé, J. P.**
Evidence for Na sequestration in muscle from Na diffusion measurements. J. P. Caillé and J. A. M. Hinke, 228.
Nombres de transport, t_K , t_{Na} et t_{Cl} pour la membrane de la cellule hépatique *in vivo*. J. P. Caillé et O. F. Schanne, 416.
- Čapek, R.**
Pharmacological studies on dorsal root responses produced by ventral root stimulation in the cat. D. W. Esplin, R. Čapek, and B. A. Esplin, 119.

- Carrara, M. C.**
The enzymatic degradation of angiotensin II analogues by proteolytic enzyme *in vitro*. M. C. Carrara, D. Regoli, and W. K. Park, 113.
- Carrière, S.**
The effect of furosemide on the intrarenal blood flow distribution in the dog. S. Carrière, M. Desrosiers, J. Friborg, and M. G. Brunette, 774.
- Catchlove, R. F. H.**
Similarity between effects of general anesthetics and dinitrophenol on cortical neurones. R. F. H. Catchlove, K. Krnjević, and H. Maretić, 1111.
- Chandra, S.**
Preparation of degradation products of fibrinogen free of plasmin, and their effect on thrombin activity. S. Chandra and D. C. Triantaphyllopoulos, 655.
- Chapler, C. K.**
Effects of propranolol and epinephrine infusion on glycogenolysis in dog skeletal muscle *in situ*. C. K. Chapler, 471.
Cardiovascular effects of propranolol during acute experimental anemia in dogs. C. K. Chapler, J. D. Hatcher, and D. B. Jennings, 1052.
- Chau-Wong, M.**
Adsorption and conduction-block of opiate narcotics on nerve membranes: identical effects of levo- and dextro-forms. P. Seeman, M. Chau-Wong, and S. Moyyen, 1181.
The membrane binding of morphine, diphenylhydantoin, and tetrahydrocannabinol. P. Seeman, M. Chau-Wong, and S. Moyyen, 1193.
- Chen, S. S.**
Late discharges in dog's sympathetic ganglia. S. S. Chen, 263.
- Chen, W.-M.**
Effects of norepinephrine in the presence of adrenergic antagonists and different ionic media upon the mechanical and ⁸⁶Rubidium efflux responses in vascular smooth muscle. W.-M. Chen and F. A. Sunahara, 1117.
- Cherrington, A.**
Effect of glucagon on glucose turnover and plasma free fatty acids in depancreatized dogs maintained on matched insulin infusions. A. Cherrington, M. Vranic, P. Fono, and N. Kovacevic, 946.
- Chessar, J. R.**
Acceleration of renal hypertension accompanied by increase in plasma volume as a result of prior thoracic sympathectomy. J. R. Chessar, C. M. Ferrario, and J. W. McCubbin, 1108.
- Chinyanga, H. M.**
The mechanism of acute neuromuscular weakness induced by chloroquine. G. A. Vartanian and H. M. Chinyanga, 1099.
- Chiong, M. A.**
The sympathoadrenergic system in the cardiovascular responses to hypoxia in the dog. M. A. Chiong and J. D. Hatcher, 674.
- Cho, C. Y.**
Amino acid composition of digesta taken from swine receiving diets containing soybean or rapeseed meals as sole source of protein. C. Y. Cho and H. S. Bayley, 513.
- Chou, S. T.**
Relative importance of liver and kidney in synthesis of uric acid in chickens. S. T. Chou, 936.
- Clement, J. G.**
Estrogenic and anti-estrogenic effects of DDT administered in the diet to immature female rats. J. G. Clement and A. B. Okey, 971.
- Coddling, J. R.**
Some effects of blood sera on the glycogenic effects of insulin on muscle. M. Merrilees, J. Coddling, J. K. Davidson, and R. E. Haist, 503.
- Code, C. F.**
Fatty acid enhancement of bidirectional flux of sodium across canine gastric mucosa. U. L. Ventura, J. F. Schlegel, and C. F. Code, 1140.
- Collins, G. A.**
Calcium and contraction in the rabbit anterior mesenteric-portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 289.
The effects of manganese on the rabbit anterior mesenteric-portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 300.
- Cooper, K. E.**
The effect of injecting an inert oil into the cerebral ventricular system upon fever produced by intravenous leucocyte pyrogen. K. E. Cooper and W. L. Veale, 1066.
- Cooper, S. D.**
Relation between drug-metabolizing activity and phospholipids in hepatic microsomes. I. Effects of phenobarbital, carbon tetrachloride, and actinomycin D. S. D. Cooper and G. Feuer, 568.
- Côté, J.**
Effects of guanethidine and related compounds on histamine excretion. J. LeBlanc, J. Côté, F. Doré, and S. Rousseau, 476.
- Couture, Y.**
Evidence that protein synthesis can be increased *in vitro* following cholinergic stimulation. Y. Couture, R. Mongeau, J. Dunnigan, and J. Morisset, 874.

- Creighton, J. M.**
Drug-induced porphyrin biosynthesis. VII. Species, sex, and developmental differences in the generation of experimental porphyria. J. M. Creighton and G. S. Marks, 485.
- Cruess, R. L.**
Strontium uptake and the organic matrix of the metaphyseal and diaphyseal bone in rat. K. C. Hong, K. Lida, and R. L. Cruess, 735.
Effect of sulfated galactan from *Hypnea japonica* on bone metabolism in rat. K. C. Hong, R. L. Cruess, and S. C. Skoryna, 784.
- Cummings, J. N.**
Ascorbate metabolism in swine. Influence of maternal hypoxia on fetal tissue ascorbate levels. R. G. Brown, W. H. Harris, and J. N. Cummings, 407.
- Cymerman, A.**
Alteration of rat brain catecholamine metabolism during exposure to hypobaric hypoxia. A. Cymerman, S. M. Robinson, and D. McCullough, 321.
- Daniel, E. E.**
The effects of excitatory drugs on potassium fluxes in uterine smooth muscle. B. J. Hodgson and E. E. Daniel, 725.
Uptake of lanthanum by smooth muscle. B. J. Hodgson, A. M. Kidwai, and E. E. Daniel, 730.
- Davidson, J. K.**
Some effects of blood sera on the glycogenic effects of insulin on muscle. M. Merrilees, J. Coddling, J. K. Davidson, and R. E. Haist, 503.
- Davidson, W. J.**
Increased depletion of catecholamines by reserpine in immature cats. W. J. Davidson and I. R. Innes, 612.
Lack of spare α -adrenoceptors in cat spleen. W. J. Davidson and I. R. Innes, 1210.
- Davies, P. F.**
Evidence for the mediatory role of brown adipose tissue during nonshivering thermogenesis in the cold-acclimated mouse. J. S. Hayward and P. F. Davies, 168.
- de Leeuw, N. K. M.**
Failure of human growth hormone and human placental lactogen to affect glucose consumption by human erythrocytes and leucocytes *in vitro*. C. L. Tanser and N. K. M. de Leeuw, 1014.
- DeLuca, F. G.**
Uridine-³H uptake by human oocytes. S. K. Ghosal, L. J. Beauregard, P. H. LaMarche, F. G. DeLuca, and C. P. Parmar, 285.
- Desrosiers, M.**
The effect of furosemide on the intrarenal blood flow distribution in the dog. S. Carrière, M. Desrosiers, J. Friberg, and M. G. Brunette, 774.
- Deyl, Z.**
Concerning the problem of granular disintegration in experimental cardiomyopathies. J. Pilný, E. Faltová, and Z. Deyl, 1043.
- Dhalla, N. S.**
Biochemical basis of heart function. V. Effect of starvation on storage, transport, and synthesis of cardiac norepinephrine in rats. V. Balasubramanian and N. S. Dhalla, 238.
Correlation between changes in the endogenous energy stores and myocardial function due to hypoxia in the isolated perfused rat heart. N. S. Dhalla, J. C. Yates, D. A. Walz, V. A. McDonald, and R. E. Olson, 333.
Biochemical basis of heart function. VI. Influence of cations on norepinephrine transport, storage, and synthesis in the isolated perfused rat heart. V. Balasubramanian and N. S. Dhalla, 423.
Myocardial contractility. II. Effect of changes in cardiac function on the subcellular distribution of calcium in the isolated perfused rat heart. C. W. Tomlinson and N. S. Dhalla, 853.
- Dieter, M. P.**
Serum and tissue enzymes and adrenocortical responses in rats exercised at intervals after cold acclimation. M. P. Dieter, P. D. Altland, and M. G. Parker, 717.
- Dinda, P. K.**
Effect of changes in the osmolality of the luminal fluid on intracellular concentration of solutes in the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 72.
Effect of changes in the osmolality of the luminal fluid on water and glucose transport across the hamster jejunum. P. K. Dinda, M. Beck, and I. T. Beck, 83.
- Doré, F.**
Effects of guanethidine and related compounds on histamine excretion. J. LeBlanc, J. Coté, F. Doré, and S. Rousseau, 476.
- Draque, J.**
Acute and chronic myocardial hypoxia: effect on the ventricular action potential. T. A. Saldeña, A. Ponce Zumino, J. Draque, and J. R. E. Suárez Estrade, 1201.
- Drouin, T. E.**
The influence of cations on spontaneous and chemically induced efflux of noradrenaline from perfused rat hearts. C. W. Nash, G. S. Taylor, and T. E. Drouin, 490.
- Duke, G. E.**
Catecholamines in turkeys with high or low blood pressure: effects of tyrosine hydroxylase inhibitor and ganglionic blocker. M. E. El-Halawani, P. E. Waibel, J. R. Appel, A. L. Good, and G. E. Duke, 697.

- Dulac, S.**
Thyrotropin (TSH) response to synthetic TSH-releasing factor following pharmacological blockade of adrenocorticotropin (ACTH) secretion. B. Koch, M. Jobin, S. Dulac, and C. Fortier, 360.
- Dunnigan, J.**
Evidence that protein synthesis can be increased *in vitro* following cholinergic stimulation. Y. Couture, R. Mongeau, J. Dunnigan, and J. Morisset, 874.
- Dupont, A.**
Effect of hippocampal stimulation on the plasma thyrotropin (TSH) and corticosterone responses to acute cold exposure in the rat. A. Dupont, E. Bastarache, E. Endrőczi, and C. Fortier, 364.
- Dryden, E. E.**
Influence of ethacrynic acid on muscle surface enzymes and of ethacrynic acid and ouabain on Na, K, and H₂O in frog muscle. J. R. Riordan, J. F. Manery, E. E. Dryden, and J. S. Still, 432.
- Dyer, D. C.**
Constriction of human umbilical vein under aerobic and anaerobic conditions. X. Nair and D. C. Dyer, 1.
Vasoactive actions of prostaglandins and serotonin on isolated human umbilical arteries and veins. M. K. Park, C. Rishor, and D. C. Dyer, 393.
- Eade, N. R.**
Inhibition of hepatic microsomal drug metabolism by the hydrazines Ro 4-4602, MK 486, and procabazine hydrochloride. N. R. Eade, S. M. MacLeod, and K. W. Renton, 721.
- El-Halawani, M. E.**
Catecholamines in turkeys with high or low blood pressure: effects of tyrosine hydroxylase inhibitor and ganglionic blocker. M. E. El-Halawani, P. E. Waibel, J. R. Appel, A. L. Good, and G. E. Duke, 697.
- Elharrar, V.**
Evaluation of β -adrenergic blocking agents in presence of adrenergic tone. V. Elharrar and R. A. Nadeau, 381.
- Endrőczi, E.**
Effect of hippocampal stimulation on the plasma thyrotropin (TSH) and corticosterone responses to acute cold exposure in the rat. A. Dupont, E. Bastarache, E. Endrőczi, and C. Fortier, 364.
- Eng, C. P.**
Inhibition of mouse ascites tumors by carbohydrate combined with immunization. C. P. Eng, M. K. Bhatnagar, and J. F. Morgan, 156.
- Esplin, B. A.**
Pharmacological studies on dorsal root responses produced by ventral root stimulation in the cat. D. W. Esplin, R. Čapek, and B. A. Esplin, 119.
- Esplin, D. W.**
Pharmacological studies on dorsal root responses produced by ventral root stimulation in the cat. D. W. Esplin, R. Čapek, and B. A. Esplin, 119.
- Eyre, P.**
The pharmacology of passive cutaneous anaphylaxis in the calf. P. W. Wells and P. Eyre, 255.
Some cardiorespiratory effects of histamine, 5-hydroxytryptamine, and compound 48/80 in the calf. A. J. Lewis and P. Eyre, 545.
- Faltová, E.**
Concerning the problem of granular disintegration in experimental cardiomyopathies. J. Pilný, E. Faltová, and Z. Deyl, 1043.
- Farrington, D.**
Observations on the measurement and regulation of the sodium content of rabbit erythrocytes: evidence for a single sodium pump. E. K. M. Smith, D. Farrington, and L. Sydiuk, 791.
- Fawcett, C. P.**
Purified growth hormone releasing factor increases ⁴⁵Ca uptake into pituitary cells. J. V. Milligan, J. Kraicer, C. P. Fawcett, and P. Illner, 613.
- Fehr, K. O.**
Analysis of cannabis smoke obtained under different combustion conditions. K. O. Fehr and H. Kalant, 761.
- Ferguson, G. G.**
Comparison of the elastic properties of human intracranial arteries and aneurysms. S. Scott, G. G. Ferguson, and M. R. Roach, 328.
- Ferrario, C. M.**
Acceleration of renal hypertension accompanied by increase in plasma volume as a result of prior thoracic sympathectomy. J. R. Chessar, C. M. Ferrario, and J. W. McCubbin, 1108.
- Feuer, G.**
Relation between drug-metabolizing activity and phospholipids in hepatic microsomes. I. Effects of phenobarbital, carbon tetrachloride, and actinomycin D. S. D. Cooper and G. Feuer, 568.
- Field, F. P.**
Aortic reactivity of rats with genetic and experimental renal hypertension. F. P. Field, R. A. Janis, and D. J. Triggie, 1072.
- Flattery, K. V.**
Seasonal changes in catecholamine content and composition of interscapular brown fat in rats fed a commercial chow or a semipurified diet. O. Héroux, G. E. Johnson, and K. V. Flattery, 30.

- Fono, P.**
Effect of glucagon on glucose turnover and plasma free fatty acids in depancreatized dogs maintained on matched insulin infusions. A. Cherrington, M. Vranic, P. Fono, and N. Kovacevic, 946.
- Fortier, C.**
Thyrotropin (TSH) response to synthetic TSH-releasing factor following pharmacological blockade of adrenocorticotropin (ACTH) secretion. B. Koch, M. Jobin, S. Dulac, and C. Fortier, 360.
Effect of hippocampal stimulation on the plasma thyrotropin (TSH) and corticosterone responses to acute cold exposure in the rat. A. Dupont, E. Bastarache, E. Endröczy, and C. Fortier, 364.
- Frank, G. B.**
The threshold for potassium-induced contractures of frog skeletal muscle. Potentiation of potassium-induced contractures by preexposure to subthreshold potassium concentrations. E. C. Vos and G. B. Frank, 37.
Events occurring in the region of the threshold for potassium-induced contractures of frog skeletal muscle. Changes in elasticity and oxygen consumption. E. C. Vos and G. B. Frank, 179.
Erratum: Events occurring in the region of the threshold for potassium-induced contractures of frog skeletal muscle. Changes in elasticity and oxygen consumption. E. C. Vos and G. B. Frank, 926.
- Friborg, J.**
The effect of furosemide on the intrarenal blood flow distribution in the dog. S. Carrière, M. Desrosiers, J. Friborg, and M. G. Brunette, 774.
- Furneaux, R. W.**
Cation transport by slices from the isolated perfused rat liver, A. C. Nestruck and R. W. Furneaux, 276.
Effects of perfusate on cation transport by slices from the isolated perfused rat liver. A. C. Nestruck and R. W. Furneaux, 916.
- Gabe, A.**
The effect of acetylsalicylic acid, caffeine, and codeine on the excretion of phenacetin metabolites. M. H. Gault, N. T. Shahidi, and A. Gabe, 809.
- Gagné, J.**
Metabolic studies on the mechanisms of increased susceptibility of weanling rats to parathion. J. Gagné and J. Brodeur, 902.
- Gault, M. H.**
The effect of acetylsalicylic acid, caffeine, and codeine on the excretion of phenacetin metabolites. M. H. Gault, N. T. Shahidi, and A. Gabe, 809.
Urine pigments after ingestion of phenacetin. M. H. Gault and N. T. Shahidi, 868.
- Gertner, S. B.**
The actions of polymyxin B and histamine on ganglionic transmission. H. E. Brezenoff and S. B. Gertner, 824.
- Ghosal, S. K.**
Uridine-³H uptake by human oocytes. S. K. Ghosal, L. J. Beauregard, P. H. LaMarche, F. G. DeLuca, and C. P. Parmar, 285.
- Glavcheva, L.**
Gastric motor activity during feeding induced by stimulation of the lateral hypothalamus in the rat. L. Glavcheva, S. K. Manchanda, B. Box, and J. A. F. Stevenson, 1091.
- Gloor, P.**
Effect of nasopharyngeal temperature change on preoptic and anterior hypothalamic thermosensitive units. J. Mitra, P. Gloor, and R. Jell, 445.
Distribution of thermosensitive and nonthermosensitive preoptic and anterior hypothalamic neurons in unanesthetized cats and effects of some anesthetics. R. M. Jell and P. Gloor, 890.
- Good, A. L.**
Catecholamines in turkeys with high or low blood pressure: effects of tyrosine hydroxylase inhibitor and ganglionic blocker. M. E. El-Halawani, P. E. Waibel, J. R. Appel, A. L. Good, and G. E. Duke, 697.
- Goode, R. C.**
Ventilation and fibrinolytic activity. A. Rossman, R. C. Goode, F. C. Monkhouse, S. Milojevic, V. McAlpine, and D. Arnold, 389.
- Gosbee, J. L.**
In vivo release of antidiuretic hormone by direct application of acetylcholine or carbachol to the rat neurohypophysis. J. L. Gosbee and K. Lederis, 618.
- Goswami, T.**
Metabolism of nucleic acids and protein in the liver, brain, and kidney of female rats subjected to dietary restriction during the period of gestation as well as the period of growth, gestation, and lactation. U. Srivastava, M-L. Vu, S. Bhargava, and T. Goswami, 832.
- Gradmann, D.**
Sarcoplasmic resistivity of normal and dystrophic muscle fibers of mice. D. Gradmann, 817.
- Greenway, C. V.**
Hepatic capacitance vessel responses to bilateral carotid occlusion in anesthetized cats. W. W. Latt and C. V. Greenway, 244.
- Groom, A. C.**
Sequestration and possible maturation of reticulocytes in the normal spleen. S. H. Song and A. C. Groom, 400.

- Guttman, M.**
Metabolic and pharmacologic interaction of ethanol and metronidazole in the rat. H. Kalant, A. E. LeBlanc, M. Guttman, and J. M. Khanna, 476.
- Gysling, E.**
Pressor effect of beta blocking agents in rats. D. Regoli, U. Regoli, and E. Gysling, 207.
- Hackett, J. T.**
Presynaptic action of central depressant drugs: inhibition of depolarization-secretion coupling. D. M. J. Quastel, J. T. Hackett, and K. Okamoto, 279.
- Haig, T. H. B.**
Failure of acetylcholine to stimulate pancreatic acinar secretion *in vitro*. T. H. B. Haig and J. D. Lamb, 1127.
- Hainsworth, F. R.**
Evaporative cooling in the rat: further consideration of functional differences between salivary glands. F. R. Hainsworth and E. M. Stricker, 172.
- Haist, R. E.**
Insulin-like effects of phospholipase C in diaphragm muscle. M. Merrilees and R. E. Haist, 367.
Some effects of blood sera on the glycogenic effects of insulin on muscle. M. Merrilees, J. Coddling, J. K. Davidson, and R. E. Haist, 503.
Studies on the effects of growth hormone and thyroxine on proinsulin synthesis and insulin formation in the isolated islets of Langerhans of the rat. A. M. Sun, B. J. Lin, and R. E. Haist, 1147.
- Harris, W. H.**
Ascorbate metabolism in swine. Influence of maternal hypoxia on fetal tissue ascorbate levels. R. G. Brown, W. H. Harris, and J. N. Cummings, 407.
- Hatcher, J. D.**
The sympathoadrenergic system in the cardiovascular responses to hypoxia in the dog. M. A. Chiong and J. D. Hatcher, 674.

Acute and chronic myocardial hypoxia: effect on the ventricular action potential. T. A. Saldeña, A. Ponce Zumino, J. Draque, and J. R. E. Suárez Estrade, 1201.
- Quamme, G. A.**
The metabolism of ³H-labelled estrone by the isolated perfused liver of the rabbit, chicken, and guinea pig. G. A. Quamme, D. S. Layne, and D. G. Williamson, 45.
- Quastel, D. M. J.**
Presynaptic action of central depressant drugs: inhibition of depolarization-secretion coupling. D. M. J. Quastel, J. T. Hackett, and K. Okamoto, 279.
- Rajhathy, J.**
Distribution of cardiac output and organ blood content in anemic and polycythemic rats. K. Rakušan and J. Rajhathy, 703.
- Rakušan, K.**
Distribution of cardiac output and organ blood content in anemic and polycythemic rats. K. Rakušan and J. Rajhathy, 703.
- Ranking, G. N.**
The effects of chronic unilateral renal artery constriction on blood pressure, separate renal function, and the development of collateral circulation in the dog. S. M. Zweig, A. Rapoport, D. R. Wilson, G. N. Ranking, and H. Husdan, 1170.
- Rao, S.**
Human skeletal muscle glycogen synthetase activities with exercise and training. A. W. Taylor, R. Thayer, and S. Rao, 411.
Human skeletal muscle phosphorylase activities with exercise and training. A. W. Taylor, M. A. Booth, and S. Rao, 1038.
- Rapoport, A.**
The effects of chronic unilateral renal artery constriction on blood pressure, separate renal function, and the development of collateral circulation in the dog. S. M. Zweig, A. Rapoport, D. R. Wilson, G. N. Ranking, and H. Husdan, 1170.
- Regoli, D.**
The pressor and myotropic effects and the antagonistic properties of several analogues of angiotensin II. D. Regoli and W. K. Park, 99.
The enzymatic degradation of angiotensin II analogues by proteolytic enzyme *in vitro*. M. C. Carrara, D. Regoli, and W. K. Park, 113.
Pressor effect of beta blocking agents in rats. D. Regoli, U. Regoli, and E. Gysling, 207.

- Regoli, U.**
Pressor effect of beta blocking agents in rats. D. Regoli, U. Regoli, and E. Gysling, 207.
- Renton, K. W.**
Inhibition of hepatic microsomal drug metabolism by the hydrazines Ro 4-4602, MK 486, and procabazine hydrochloride. N. R. Eade, S. M. MacLeod, and K. W. Renton, 721.
- Riordan, J. R.**
Influence of ethacrynic acid on muscle surface enzymes and of ethacrynic acid and ouabain on Na, K, and H₂O in frog muscle. J. R. Riordan, J. F. Manery, E. E. Dryden, and J. S. Still, 432.
- Rishor, C.**
Vasoactive actions of prostaglandins and serotonin on isolated human umbilical arteries and veins. M. K. Park, C. Rishor, and D. C. Dyer, 393.
- Roach, M. R.**
Comparison of the elastic properties of human intracranial arteries and aneurysms. S. Scott, G. G. Ferguson, and M. R. Roach, 328.
- Robinson, G. A.**
Effect of age, sex, and egg laying on the total erythrocyte volume (⁵¹CO₄ label) and the plasma volume (¹²⁵I-serum albumin label) of Japanese quail. G. P. Nirmalan and G. A. Robinson, 6.
Plasma volume and total erythrocyte volume in the molybdenotic rabbit. G. A. Robinson and D. V. Warren, 248.
- Robinson, S. M.**
Alteration of rat brain catecholamine metabolism during exposure to hypobaric hypoxia. A. Cymerman, S. M. Robinson, and D. McCullough, 321.
- Rollo, I. M.**
Physicochemical properties of some semisynthetic penicillins. I. M. Rollo, 976.
Physiological disposition of some semisynthetic penicillins. I. M. Rollo, 986.
- Rossmann, A.**
Ventilation and fibrinolytic activity. A. Rossmann, R. C. Goode, F. C. Monkhouse, S. Milojevic, V. McAlpine, and D. Arnold, 389.
- Rousseau, S.**
Effects of guanethidine and related compounds on histamine excretion. J. LeBlanc, J. Coté, F. Doré, and S. Rousseau, 476.
- Rowlands, S.**
The resistance to blood flow in the capillaries. A. W. L. Jay, S. Rowlands, and L. Skibo, 1007.
- Rubinstein, D.**
Hormonal release by dispersed pituitary cells. C. F. Kudo, D. Rubinstein, J. M. McKenzie, and J. C. Beck, 860.
- Ruse, J. L.**
Effects of a sulfated mucopolysaccharide (R01-8307) on zona glomerulosa width and steroid production by the rat adrenal cortex. J. H. Levine, J. C. Laidlaw, and J. L. Ruse, 270.
- Ruth, R. F.**
Seasonal variations of the immune response of ground squirrel kept at 22–24 °C. Y. A. Sidky, J. S. Hayward, and R. F. Ruth, 203.
- Saari, J. T.**
Effects of cytochalasin B on osmotic fragility and deformability of human erythrocytes. J. S. Beck, A. W. L. Jay, and J. T. Saari, 684.
Build-up of calcium content and contractile force in the rabbit heart. J. T. Saari and J. A. Johnson, 1206.
- Saldena, T. A.**
Acute and chronic myocardial hypoxia: effect on the ventricular action potential. T. A. Saldeña, A. Ponce Zumino, J. Draque, and J. R. E. Suárez Estrade, 1201.
- Saucier, R.**
Activités de la HL-STH hypothalamique, de la STH hypophysaire et de la STH mimétique du plasma chez des rates adultes et immatures traitées à l'Enovid. P. Brazeau, Jr., R. Saucier et S. M. Husain, 967.
- Schanne, O. F.**
Nombres de transport, *t*_K, *t*_{Na} et *t*_{Cl} pour la membrane de la cellule hépatique *in vivo*. J. P. Caillé et O. F. Schanne, 416.
Factors involved in the loss of spontaneous contractile and electrical activity in clusters of cultured cardiac cells. O. F. Schanne, 523.
- Schlegel, J. F.**
Fatty acid enhancement of bidirectional flux of sodium across canine gastric mucosa. U. L. Ventura, J. F. Schlegel, and C. F. Code, 1140.
- Scott, S.**
Comparison of the elastic properties of human intracranial arteries and aneurysms. S. Scott, G. G. Ferguson, and M. R. Roach, 328.
- Seeman, P.**
On the mechanism of the nicotine-induced contracture of skeletal muscle. W. R. Thorpe and P. Seeman, 920.
Adsorption and conduction-block of opiate narcotics on nerve membranes: identical effects of levo- and dextro-forms. P. Seeman, M. Chau-Wong, and S. Moyyen, 1181.
The membrane binding of morphine, diphenylhydantoin, and tetrahydrocannabinol. P. Seeman, M. Chau-Wong, and S. Moyyen, 1193.

- Shahidi, N. T.**
The effect of acetylsalicylic acid, caffeine, and codeine on the excretion of phenacetin metabolites. M. H. Gault, N. T. Shadihi, and A. Gabe, 809.
Urine pigments after ingestion of phenacetin. M. H. Gault and N. T. Shahidi, 868.
- Shanbour, L. L.**
Effects of dopamine and other catecholamines on the splanchnic circulation. L. L. Shanbour and D. Parker, 594.
- Sidky, Y. A.**
Seasonal variations of the immune response of ground squirrel kept at 22–24 °C. Y. A. Sidky, J. S. Hayward, and R. F. Ruth, 203.
- Simon, J.**
Etude de l'influence de jeûnes périodiques sur la croissance, la glycémie, quelques caractéristiques du métabolisme hépatique et la composition corporelle du poulet. J. Simon et J. C. Blum, 621.
Effect of two types of feed restriction, intermittent total starvation or intermittent protein starvation, on growth, lipogenesis, and fatty acid composition of liver and adipose tissues in chicks. J. Simon and G. J. Brisson, 634.
- Sinclair, D. G.**
Suppression by corticosterone of adrenocorticotropin release from adenohipophyses incubated in Krebs–Ringer bicarbonate ultrafiltered plasma. J. Kraicer, J. V. Milligan, and D. G. Sinclair, 164.
- Sinclair, J. G.**
Ethoheptazine-monoamine oxidase inhibitor interaction in rabbits. J. G. Sinclair, 923.
- Skibo, L.**
The resistance to blood flow in the capillaries. A. W. L. Jay, S. Rowlands, and L. Skibo, 1007.
- Skoryna, S. C.**
Effect of sulfated galactan from *Hypnea japonica* on bone metabolism in rat. K. C. Hong, R. L. Cruess, and S. C. Skoryna, 784.
- Smith, D. A.**
Renin release stimulated by an acute increase in hematocrit in the dog. K. M. McDonald and D. A. Smith, 176.
- Smith, E. K. M.**
Observations on the measurement and regulation of the sodium content of rabbit erythrocytes: evidence for a single sodium pump. E. K. M. Smith, D. Farrington, and L. Sydiuk, 791.
- Smith, R. S.**
Histochemical identification of three types of intrafusal muscle fibers in the cat and monkey based on the myosin ATPase reaction. W. K. Ovalle and R. S. Smith, 195.
Detection of organelles in myelinated nerve fibers by dark-field microscopy. R. S. Smith, 467.
- Song, S. H.**
Sequestration and possible maturation of reticulocytes in the normal spleen. S. H. Song and A. C. Groom, 400.
- Srivastava, U.**
Metabolism of nucleic acids and protein in the liver, brain, and kidney of female rats subjected to dietary restriction during the period of gestation as well as the period of growth, gestation, and lactation. U. Srivastava, M.-L. Vu, S. Bhargava, and T. Goswami, 832.
- Stevenson, J. A. F.**
Gastric motor activity during feeding induced by stimulation of the lateral hypothalamus in the rat. L. Glavcheva, S. K. Manchanda, B. Box, and J. A. F. Stevenson, 1091.
- Still, J. S.**
Influence of ethacrynic acid on muscle surface enzymes and of ethacrynic acid and ouabain on Na, K, and H₂O in frog muscle. J. R. Riordan, J. F. Manery, E. E. Dryden, and J. S. Still, 432.
- St-Laurent, J.**
Ambivalence in rats using single-lever Skinner boxes. J. St-Laurent, R. Leclerc, J. Beaugrand, M. Mitchell, and M. Paradis, 1104.
- Stricker, E. M.**
Evaporative cooling in the rat: further consideration of functional differences between salivary glands. F. R. Hainsworth and E. M. Stricker, 172.
- Suárez Estrade, J. R. E.**
Acute and chronic myocardial hypoxia: effect on the ventricular action potential. T. A. Saldeña, A. Ponce Zumino, J. Draque, and J. R. E. Suárez Estrade, 1201.
- Sun, A. M.**
Studies on the effects of growth hormone and thyroxine on proinsulin synthesis and insulin formation in the isolated islets of Langerhans of the rat. A. M. Sun, B. J. Lin, and R. E. Haist, 1147.
- Sunahara, F. A.**
Effects of norepinephrine in the presence of adrenergic antagonists and different ionic media upon the mechanical and ⁸⁶Rb efflux responses in vascular smooth muscle. W.-M. Chen and F. A. Sunahara, 1117.
- Sutter, M. C.**
Calcium and contraction in the rabbit anterior mesenteric–portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 289.
The effects of manganese on the rabbit anterior mesenteric–portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 300.

- Sydiuk, L.**
Observations on the measurement and regulation of the sodium content of rabbit erythrocytes: evidence for a single sodium pump. E. K. M. Smith, D. Farrington, and L. Sydiuk, 791.
- Tanser, C. L.**
Failure of human growth hormone and human placental lactogen to affect glucose consumption by human erythrocytes and leucocytes *in vitro*. C. L. Tanser and N. K. M. de Leeuw, 1014.
- Taylor, A. W.**
Human skeletal muscle glycogen synthetase activities with exercise and training. A. W. Taylor, R. Thayer, and S. Rao, 411.
Human skeletal muscle phosphorylase activities with exercise and training. A. W. Taylor, M. A. Booth, and S. Rao, 1038.
- Taylor, G. S.**
The influence of cations on spontaneous and chemically induced efflux of noradrenaline from perfused rat hearts. C. W. Nash, G. S. Taylor and T. E. Drouin, 490.
- Teare, J. L.**
Slow rhythms of sympathetic discharge induced by convulsant drugs. C. Polosa, J. L. Teare, and I. Wyszogrodski, 188.
- Teiser, J. C.**
Calcium and contraction in the rabbit anterior mesenteric-portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 289.
The effects of manganese on the rabbit anterior mesenteric-portal vein. G. A. Collins, M. C. Sutter, and J. C. Teiser, 300.
- Thayer, R.**
Human skeletal muscle glycogen synthetase activities with exercise and training. A. W. Taylor, R. Thayer, and S. Rao, 411.
- Thorpe, W. R.**
On the mechanism of the nicotine-induced contracture of skeletal muscle. W. R. Thorpe and P. Seeman, 920.
- Tomlinson, C. W.**
Myocardial contractility. II. Effect of changes in cardiac function on the subcellular distribution of calcium in the isolated perfused rat heart. C. W. Tomlinson and N. S. Dhalla, 853.
- Triantaphyllopoulos, D. C.**
Preparation of degradation products of fibrinogen free of plasmin, and their effect on thrombin activity. S. Chandra and D. C. Triantaphyllopoulos, 655.
- Triggle, D. J.**
Aortic reactivity of rats with genetic and experimental renal hypertension. F. P. Field, R. A. Janis, and D. J. Triggle, 1072.
- Tu, T.**
The influence of inorganic ions on the uptake and retention of tritiated noradrenaline by isolated perfused rat hearts. C. W. Nash, T. Tu, and M. J. Martin, 645.
- Urton, J. I. M.**
Development of an anticonvulsant agent based on its effect on α -aminobutyric acid metabolism. J. D. Wood, S. J. Peesker, and J. I. M. Urton, 1217.
- Vallières, J.**
Studies on the sensitization to cardiovascular effects of catecholamines. J. Vallières, M. Bureau, and J. LeBlanc, 576.
- Varma, R. N.**
Quantitative aspects of the urinary and fecal excretion radioactive metabolites of vitamin A in the rat. R. N. Varma and G. H. Beaton, 1026.
- Vartanian, G. A.**
The mechanism of acute neuromuscular weakness induced by chloroquine. G. A. Vartanian and H. M. Chinyanga, 1099.
- Veale, W. L.**
The effect of injecting an inert oil into the cerebral ventricular system upon fever produced by intravenous leucocyte pyrogen. K. E. Cooper and W. L. Veale, 1066.
- Veen-Baigent, M. J.**
The effect of freezing and thawing during storage on the retinyl ester : retinol ratio in rat liver. D. L. Yeung and M. J. Veen-Baigent, 48.
Absorption of retinol and retinyl esters via lymph and the portal vein in the rat. D. L. Yeung and M. J. Veen-Baigent, 753.
- Ventura, U. L.**
Fatty acid enhancement of bidirectional flux of sodium across canine gastric mucosa. U. L. Ventura, J. F. Schlegel, and C. F. Code, 1140.
- Veress, A. T.**
Effect of vagotomy on the renal response to blood volume expansion in the rat. A. T. Veress and J. W. Pearce, 463.
- Vos, E. C.**
The threshold for potassium-induced contractures of frog skeletal muscle. Potentiation of potassium-induced contractures by preexposure to subthreshold potassium concentrations. E. C. Vos and B. G. Frank, 37.
Events occurring in the region of the threshold for potassium-induced contractures of frog skeletal muscle. Changes in elasticity and oxygen consumption. E. C. Vos and G. B. Frank, 179.

- Erratum: Events occurring in the region of the threshold for potassium-induced contractures of frog skeletal muscle. Changes in elasticity and oxygen consumption. E. C. Vos and G. B. Frank, 926.
- Vranic, M.**
Effect of glucagon on glucose turnover and plasma free fatty acids in depancreatized dogs maintained on matched insulin infusions. A. Cherrington, M. Vranic, P. Fono, and N. Kovacevic, 946.
- Vu, M.-L.**
Metabolism of nucleic acids and protein in the liver, brain, and kidney of female rats subjected to dietary restriction during the period of gestation as well as the period of growth, gestation, and lactation. U. Srivastava, M.-L. Vu, S. Bhargava, and T. Goswami, 832.
- Waibel, P. E.**
Catecholamines in turkeys with high or low blood pressure: effects of tyrosine hydroxylase inhibitor and ganglionic blocker. M. E. El-Halawani, P. E. Waibel, J. R. Appel, A. L. Good, and G. E. Duke, 697.
- Walz, D. A.**
Correlation between changes in the endogenous energy stores and myocardial function due to hypoxia in the isolated perfused rat heart. N. S. Dhalla, J. C. Yates, D. A. Walz, V. A. McDonald, and R. E. Olson, 333.
- Ward, E. E.**
Decreased airway conductance with nebulization of water: its response to epinephrine, atropine, and N-acetylcysteine. G. N. Melville, E. E. Ward, and D. Morris, 354.
- Warren, D. V.**
Plasma volume and total erythrocyte volume in the molybdenotic rabbit. G. A. Robinson and D. V. Warren, 248.
- Washio, H.**
Calcium inward currents in insect muscle fibers. H. Washio, 1114.
- Waugh, W. H.**
Angiotensin II: local renal effects of physiological increments in concentration. W. H. Waugh, 711.
- Welbourne, T. C.**
Influence of citric acid administration upon renal ammoniogenesis in the acidotic dog and rat. T. C. Welbourne, 883.
- Wells, P. W.**
The pharmacology of passive cutaneous anaphylaxis in the calf. P. W. Wells and P. Eyre, 255.
- Wilensky, A. J.**
Interaction of diphenylhydantoin-4-¹⁴C with subcellular fractions of rat brain. A. J. Wilensky and J. A. Lowden, 346.
- Williamson, D. G.**
The metabolism of ³H-labelled estrone by the isolated perfused liver of the rabbit, chicken, and guinea pig. G. A. Quamme, D. S. Layne, and D. G. Williamson, 45.
- Wilson, D. R.**
The effect of papillectomy on renal function in the rat during hydropenia and after an acute saline load. D. R. Wilson, 662.
The effects of chronic unilateral renal artery constriction on blood pressure, separate renal function, and the development of collateral circulation in the dog. S. M. Zweig, A. Rapoport, D. R. Wilson, G. N. Ranking, and H. Husdan, 1170.
- Wollin, A.**
Analysis of heparin - azure A metachromasy in agarose gel. A. Wollin and L. B. Jaques, 65.
- Wood, J. D.**
Development of an anticonvulsant agent based on its effect on α -aminobutyric acid metabolism. J. D. Wood, S. J. Peesker, and J. I. M. Urton, 1217.
- Worsley-Brown, P.**
The metabolic changes in frog sartorius muscles during recovery from fatigue at different external bicarbonate concentrations. G. W. Mainwood, P. Worsley-Brown, and R. A. Paterson, 143.
- Wyszogrodski, I.**
Slow rhythms of sympathetic discharge induced by convulsant drugs. C. Polosa, J. L. Teare, and I. Wyszogrodski, 188.
- Yates, J. C.**
Correlation between changes in the endogenous energy stores and myocardial function due to hypoxia in the isolated perfused rat heart. N. S. Dhalla, J. C. Yates, D. A. Walz, V. A. McDonald, and R. E. Olson, 333.
- Yeung, D. L.**
The effect of freezing and thawing during storage on the retinyl ester : retinol ratio in rat liver. D. L. Yeung and M. J. Veen-Baigent, 48.
Absorption of retinol and retinyl esters via lymph and the portal vein in the rat. D. L. Yeung and M. J. Veen-Baigent, 753.
- Yu, J. Y.-L.**
Development, cellular growth, and function of the avian oviduct. II. A comparative study on the changes of cellular components in each region of the domestic fowl (*Gallus domesticus*) oviduct during a reproductive cycle. J. Y.-L. Yu, R. R. Marquardt, and G. C. Hodgson, 689.
- Zweig, S. M.**
The effects of chronic unilateral renal artery constriction on blood pressure, separate renal function, and the development of collateral circulation in the dog. S. M. Zweig, A. Rapoport, D. R. Wilson, G. N. Ranking, and H. Husdan, 1170.
